

Forecast For Southwest England
Issued by Met Office Exeter
at 0400 on Tuesday 14 Dec 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Cloudy and mild.

Today:
Mist and fog slowly gives way to a rather cloudy day. Dry for many though patchy drizzle is possible over higher ground, especially at first. One or two brighter breaks developing later. Feeling very mild with a gentle breeze. Maximum temperature 13 deg C (55 deg F).

Tonight:
Another cloudy night with murky conditions over the high ground. Largely dry but isolated spells of drizzle can't be ruled out at times. Remaining mild. Minimum temperature 8 deg C (46 deg F).

Wednesday:
Staying predominantly cloudy through Wednesday with occasional bright spells in the afternoon. Mostly dry but further drizzle is possible. Still feeling mild. Maximum temperature 12 deg C (54 deg F).

Outlook for Thursday to Saturday:
Largely settled through the week, but on the cloudy side with limited bright spells in the afternoon and patchy drizzle at times. A risk of morning fog under cloud breaks.
